**MULTI-DESCRAMBLING** NEOTION PRO CAM is specifically developed for professional equipment to receive and descramble several services simultaneously, 24/7. This solution is suitable for establishments such as residential buildings, hotels, hospitals, etc. The PRO CAM range is available in 2, 4, 6 and more than 7 services.

**ABOUT OUR CAM**

**On the way to CI+ 1.4**  
 NEOTION next CAM generation is CI+ 1.4 ready, bringing expected features by the market to fill the remaining gap with set-top-boxes by constantly increasing security CI+ resources against piracy.

**Multi-language**  
 NEOTION supports more than 20 different languages such as Czech, English, Estonian, Hungarian, Kazakh, Latvian, Lithuanian, Polish, Romanian, Russian, Slovak, Turkish, etc.

**Byconverging Broadcast&Broadband**

▶▶▶ **Delivering secure OTT services**  
 A NEOTION CI Plus CAM embedding Specific Application Support (SAS) CI Plus resource, a Connected TV (embedding the OIPF agent, an IP-built interface and a HbbTV browser) & a combined DRM agent with a HbbTV 2.0 in the Connected TV set.

▶▶▶ **Bringing Audience Measurement**  
 A NEOTION CI Plus CAM embedding Low Speed Communication (LSC) CI Plus resources, a Connected TV combined with a TVaaS platform for audience measurement and customer behaviors analysis.
